TECHNICAL DATA SHEET

BLUE MAX Cleaner and Degreaser

Outstanding Characteristics:

BLUE MAX is an excellent all purpose cleaner and degreaser especially designed for industrial use. **BLUE MAX** is a versatile product for degreasing and cleaning machinery, equipment, auto and industrial engines, and vinyl and plastic. For all practical purposes, **BLUE MAX** is non-toxic to humans, aquatic life and animals. The major constituents in this formulation are biodegradable.

Description:

BLUE MAX contains a balanced combination of detergents, water softeners, grease-dissolving chemicals, corrosion inhibitors and emulsifiers. This enables **BLUE MAX** to penetrate and dissolve build-ups of greases, waxes and soils. **BLUE MAX** is economical, safe to use on fabric and paints and non-corrosive to metals.

Application:

Dilution Rate

Difficult jobs	16 ounces per gallon of water
Heavy-duty jobs	8 ounces per gallon of water
Medium-duty jobs	4 ounces per gallon of water
Light-duty jobs	2 ounces per gallon of water

Shipping and Handling:

BLUE MAX is available in 55-gallon metal drums, 5-gallon plastic pails and cases of six 1-gallon pails. A Material Safety Data sheet outlining recommended safe handling of **BLUE MAX** is available upon request. For further information, please contact Deep South Chemical, Inc. at 1-800-737-3546 or 337-837-9931.
