

# SAFETY DATA SHEET

## 1. Identification Product identifier

# DSC SPACER VIS

Other means of identification Recommended use	Not available. Oilfield drilling compound
Recommended restrictions	None known.
Manufacturer/Importer/Supplier/Dist	ributor information
Manufacturer	
Company name	Deep South Chemical, Inc.
Address	229 Millstone Rd.
	Broussard, LA 70518
Telephone Website	+1 337 837 9931 or +1 800 737 3546 www.deep-south-chemical.com
E-mail	info@deep-south-chemical.com
Contact person	CHEMTREC
Emergency phone number	+1 800 424 9300
2. Hazard(s) identification	

Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Combustible dust.
Label elements	
Hazard symbol	None.
Signal word	Warning.
Hazard statement	May form combustible dust concentrations in air.
Precautionary statement	
Prevention	Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Prevent dust accumulation to minimize explosion hazard. Observe good industrial hygiene practices.
Response	Remove and wash contaminated clothing before re-use. In case of fire: Use appropriate media to extinguish.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	Not classified.
3. Composition/information	on ingredients

Substances

Hazardous components Chemical name

Diutan gum

CAS number

595585-15-2, 125005-87-0

4. First-aid measures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Dust may irritate the eyes and the respiratory system.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Apply extinguishing media carefully to avoid creating airborne dust.
Unsuitable extinguishing media the chemical	None known. Explosion hazard: Avoid generating dust; fine dust dispersed in air in sufficient concentrations and
Specific hazards arising from and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire. in the presence of an ignition source is a potential dust explosion hazard.
Special protective equipment equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do
Fire-fighting	so without risk.
General fire hazards	May form combustible dust concentrations in air.
6. Accidental release measu	ires
Personal precautions, protective equipment and emergency procedures	Use only non-sparking tools. Keep unnecessary personnel away. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Wear appropriate personal protective equipment. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Take precautionary measures against static discharge. Use only non-sparking tools. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
	Large Spills: Stop the flow of material, if this is without risk. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Dike far ahead of spill for later disposal. Sweep up or vacuum up spillage and collect in suitable container for disposal.
	Small Spills: Collect dust using a vacuum cleaner equipped with HEPA filter.

Never return spills in original containers for re-use. For waste disposal, see section 13 of the MSDS.

**Environmental precautions** 

MSDS. Avoid discharge into drains, water courses or onto the ground.

# 7. Handling and storage

Precautions for safe handling
 Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Use explosion-proof equipment. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Keep container tightly closed. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the MSDS).

Upper/lower flammability or explosive limits

Flammability limit t - upper (%) Not available.

Flammability limit t - upper (%)	Not available.
Explosive limit – lower (%)	Not available
Explosive limit – lower (%)	Not available

Material name: SPACER VIS Revision date: -06-30-2015 SDS US 3-6

Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	Not available.
Solubility(ies)	Soluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not applicable.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Keep away from heat, sparks and open flame. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

# 11. Toxicological information

## Information on likely routes of exposure

Ingestion	Expected to be a low ingestion hazard.
Inhalation	Inhalation of dusts may cause respiratory irritation.
Skin contact	Prolonged skin contact may cause temporary irritation.
Eye contact	Dust in the eyes will cause irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Dusts may irritate the respiratory tract, skin and eyes.

## Information on toxicological effects

	-	Expected to be a low hazard for usual industrial or commercial handling by trained personnel.
	Acute toxicity	Prolonged skin contact may cause temporary irritation
	Skin corrosion/irritation	
	Serious eye damage/eye irritation	Dust in the eyes will cause irritation.
	Respiratory sensitization	Not a respiratory sensitizer.
	Skin sensitization	This product is not expected to cause skin sensitization.
	Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
	Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
	Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
	Specific target organ toxicity -	Not classified.
	single exposure	
Sp	Specific target organ toxicity -	N <u>o</u> t classified.
	repeated exposure Aspiration hazard	Not an aspiration hazard.
12	. Ecological information	
	Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
	Persistence and degradability	The product is expected to biodegrade and is not expected to persist for long periods in an aquatic environment.
	Bioaccumulative potential	No data available for this product.
	Mobility in soil	The product is soluble in water.

Material name: SPACER VIS Revision date: -06-30-2015

13. Disposal considerations	
Disposal instructions	Dispose of contents/container in accordance with local/regional/national/international regulations. Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport information

**DOT** Not regulated as a hazardous material by DOT.

IATA Not regulated as a dangerous good.

**IMDG** Not regulated as a dangerous good.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

#### 15. Regulatory information

#### **US** federal regulations

US OSHA	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication
	Standard, 29 CFR 1910.1200.

Not regulated.

TSCA 8(b) All components are either on the U.S. EPA TSCA 8b Inventory List or exempted.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Diutan gum (CAS 595585-15-2).

CERCLA Hazardous Substance List (40 CFR 302.4) Not listed.

SARA 304 Emergency release notification. Not listed.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories	Immediate Hazard - No Delayed Hazard - No FireHazard - Yes Pressure Hazard - No Reactivity Hazard - No
SARA 302 Extremely hazardous substance	No
SARA 311/312 Hazardous chemical	Yes
SARA 313 (TRI reporting)	No
Other federal regulations	

 Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
 Not regulated.

 Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
 Not regulated.

 Safe Drinking Water Act (SDWA)
 Not regulated.

#### US state regulations

US. California Proposition 65 This product contains no chemicals at levels known to the State of California to cause cancer or reproductive hazards.
